Program Description

Vancouver Community College and Vancouver Film School have partnered to create a cross-institutional joint diploma program in VR/AR Design & Development. This program creates an opportunity for students who don't meet the requirements of the 8-month program at VFS, and to elevate the quality of student projects coming out of the program. Students are also provided with the opportunity to complete a practicum in the growing VR/AR ecosystem in Vancouver, which will help address the labor shortages in the industry. ***Post-Graduation Work Permit is issued for the duration of full-time studies at VCC, which is an eligible Designated Learning Institution. Post-Graduation Work Permit eligibility and length will be at the discretion of individual IRCC officers processing the applications.***

Graduate Outcomes

Graduates of this program will be ready to work in the technology industry creating VR/AR experiences.
