Prepare for rewarding employment as an adult educator. Students in the Provincial Instructor Diploma Program (PIDP) build knowledge and skills to design, develop, manage and evaluate the instruction of adults in post-secondary education, business, industry and non-traditional adult learning environments. The PIDP provides instructors with an accredited development program leading to degrees at other institutions.

Placing a priority on developing the practical abilities to fulfill the role and responsibilities of adult educations, the PIDP also emphasizes the development of personal attributes needed to assume the duties of a professional educator. The program stresses classroom leadership and facilitation, as well as motivational skills and human relations skills. The 30-hour courses are offered in several formats allowing you to choose from daytime, weekend and online classes, or a combination thereof.
